

Global Carbon Footprint Assurance Statement 2023/24

August 2024

Freshfields Bruckhaus Deringer

Statement of verification

Freshfields Bruckhaus Deringer LLP
One New Bailey
4 Stanley Street, Salford
M3 5JL

30 August 2024

Scope

Freshfields Bruckhaus Deringer LLP (henceforth referred to as Freshfields) engaged Carbon Footprint Ltd to verify its global GHG emissions and supporting evidence for the period **1st May 2023 to 30th April 2024**. Freshfields is responsible for the information within the GHG inventory. The responsibility of Carbon Footprint Ltd is to provide a conclusion as to whether the statements made are in accordance with the GHG Protocol Corporate Standard.

Methodology

The verification was led by Jenny Webb, Senior Environmental Consultant, Carbon Footprint Ltd. Carbon Footprint Ltd completed the review in accordance with the [‘ISO 14064 Part 3 \(2019\): Greenhouse Gases: Specification with guidance for the verification and validation of greenhouse gas statements’](#). The work was undertaken to provide a limited level of assurance with respect to the GHG statements made. Carbon Footprint Ltd believes that the review of the assessment and associated evidence, coupled with this subsequent report, provides a reasonable and fair basis for our conclusion.

The following data was within the scope of the verification (below shows the post-audit results):

Scope	Element	Location-based (tCO ₂ e)	Market-based (tCO ₂ e)
1	Company vehicles, natural gas consumption, refrigerant loss & other fuels.	543.87	543.87
2	Purchased electricity, district cooling and district heating.	5,913.60	2,714.12
3	Purchased goods & services, business travel (air, taxi, hire cars, rail, grey fleet), water, waste, paper, hotel stays, employee commuting, communal energy consumption (for Germany offices only), electricity and district heating transmission & distribution, and Well-To-Tank (WTT) emissions.	42,973.94	42,973.94
	Total	49,431.41	46,231.93

The table below shows the results of Freshfields’ environmental KPIs that have been audited by Carbon Footprint Ltd.

Paper consumption:	93 metric tonnes
Water consumption:	40,988 m ³
Waste disposal:	871 metric tonnes

Assurance opinion

Based on the results of our verification process, Carbon Footprint Ltd provides limited assurance of the GHG emissions statement, **and found no evidence that the GHG emissions statement:**

- is not materially correct and is not a fair representation of the GHG emissions data and information;
- has not been prepared in accordance with the GHG Protocol Corporate Standard.

It is our opinion that Freshfields Bruckhaus Deringer LLP has established appropriate systems for the collection, aggregation and analysis of quantitative data for determination of GHG emissions for the stated period and boundaries.
